FLOWER SEEDS BY MAIL. Twenty Choice Varieties for Cne Dollar. THE subscriber respectfully amnounces that, as to supply a want that has been greatly de-u manded by Amateurs of Flowers, he has pur-chased from Mr. B. E. Bliss, of Springfloid, Muss., an scortment of his Flower Scour, which have been found and are known in every State of the Union, to be of the most reliable characters. I make the fol lowing extract from Bibs' Catalogue, so that it may be seen that I sell them at exactly his prices. His seeds brace not only those of his own raising, but selec tions from the best English, French, and German flow-er seeds. They are sold at half the price that flower seeds have before commanded to this market.

I have selected out of my large collection of flower Seeds, the most benefited and showy varieties, each nort distinct in color, and calculated to produce a line

effect when planted out in beas or groups in the flower border. I have had each variety distinctly marked with the Betanical and English hame, height, time of flowering, color of the flower, mainer of growing, whether erect or trailing, &c., the time it should be nown, and other valuable hints as to its cultivation.

In selecting these varieties, I have been careful to ex cinde all which are shy bisomers or have an insignifi-cant appearance, so that the collections will comprise only those which are really showy and handsome, and which I believe would prove to the entire satisfaction of any lady or gentleman who might be deposed to order them. The collection will be scut free by post to any part of the country at the following prices: Assortment No. 1, consults of twenty choice varieties

THE undersigned is prepared to introduce into use in Tennessee W. E. CHILDS & CO'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOF-NG, and asks the attention of Architects, Builders, tailroad Companies, and the public, to examine its apperiority over other Roofing. Architects and Builders

ervious to water, clastic, and flexible. It contracts nd expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to as durability, there is no question. It is practically imperishable, and will perfectly resist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over ormary good sheathing, old shingles, tar and gravel, in, zinc, copper, or iron roofs—it making no difference

low steep or that they may be-for seven dollars per roof of the old style, and we are sure it will give beter satisfaction.
It will also be found to be the best thing ever inented to cover or mend old leaky tm, tar and gravel roofs, or around chimneys, scattles, dormer windows and gotters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. The Roots can be cemented over (and warranted not to leak) at two dollars and fifty cents per undred square feet, which is cheaper and much bet-er than paint. This Roofing will be found to be the est thing for covering large Roofs where they are exsed to fire-such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and in factovery kind of Roof where here is an external exposure from fire. As the Boof perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

Persons of Consumptive Habits, READ THIS!

L time in my life I am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the certificate I feel that I am only discharging a duty that I owe to the Græfenberg Company with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption.

I have used the Græfenberg Consumptive's Balm in severe cases of consumption, is my practice, with the happiest effect. I wish all would use it.

MR. J. F. Cowan:—Dear sir:—I hereby certify that in
the summer of the year 1855, a servant of mine, a boy about 19 years of age, who had always before this time been stont and of a vigorous constitution, was attacked with gravel. A Physician was called who attended on

with gravet. A Physician was called who attended on him for several months, during which time he grew worse daily, until he was helpless, and I believe would have died in a few days had it not been for a friend, who advised the use of Cowan's Lithoutriptic. I pro-cured a few bottles, the first of which gave him relief, and in a short time he was able to walk about, and finally fully recovered; since which time he has had no symptoms of said discase, and to all appearance is as healthy as any servant on my plantation. I there-fore recommend it to all persons suffering under a like disease, as one of the most certain remedies Given under my hand this August 22d, 1857. DANIEL SHELTON. When I was confined I look about two wine glasses full of the same meeticine, which gave me an easier delivery by a great deal than I ever had before. Nor is this all, I may seen it tried in one case, and heard from a respectable source is another case, that your Lithuntriptic was tried in, and the Misswite with others in atattendance were thoroughly convinced that the pain of the delivery was very much lessened by its use. I would say to all my sex that expect to be mothers, not to be without your invaluable medicine during preg-nancy, and particularly at the time of confinement, as it has a marked tendency to relax the system, conse-quently the pain of labor is much diminished; and fur-ther my Physicians and Midwide both said that I had dropsy of the Womb, and I now enjoy better health than I have done is for your and the property of the womb, and the property that the pain is to your and the property of the womb, and I now enjoy better health than I have done in ten years, and I believe the discase is entirely removed.
